Our Mission:

To provide curricula that are tailored to meeting the requirements of industries and train students to be both academically, practically and professionally prepared to “hit the ground running” in the industry.

Our Vision:

To provide a platform for galvanising and channelling the energy and intellectual prowess of our youths towards the acceleration of Africa’s growth and development, and by so doing, making contributions to global advancement in human capacity.
SOFTWARE CURRENTLY USED AND SUPPORTED

1. Mozilla Foundation Software : Used by the Mozilla Club
